

# Consent is sweet. Sexual assault is not.

**Consent:** permission or agreement to do something. This is different than lack of a "no." It requires a positive response!

**Ask yourself:** have you asked them for consent? Are they having a good time? Are you sure? If they ask you to stop at any time - STOP! If they are drunk - STOP! If you want to move on to a new sexual activity - ASK FIRST.

**Sex without consent is sexual assault.**
