

Consent is sweet.
Sexual assault is not.

Consent: permission or agreement to do something. This is different than lack of a "no." It requires a positive response!

Ask yourself: have you asked them for consent? Are they having a good time? Are you sure? If they ask you to stop at any time - STOP! If they are drunk - STOP! If you want to move on to a new sexual activity - ASK FIRST.
Sex without consent is sexual assault.
